

What's the worst thing that can happen to your company?

TERRORISM

POWER LOSS

HURRICANE

FIRE

EARTHQUAKE

none of the above.

The worst thing that could happen to your company's data center is to SPEND TOO MUCH on protection against a laundry list of disasters that probably will never occur.

But that's what can happen if you get hooked on a program with an expensive monthly fee and a long Disaster Recovery contract!

Disaster Recovery should really be a simple matter of dollars and sense. It makes no sense to spend too many dollars.

Disaster Recovery Professionals' auditor-approved \$360-monthly equipment replacement program is the only plan available that guarantees replacement hardware from all major manufacturers – expedited to your door.
